**Dear comrades,**

We address our comradely greetings to the 2nd Congress of the Party of Communists USA. Our Party is following with interest your effort to form a Communist Party in the heart of the greatest imperialist power on the planet.

Today in conditions where a new capitalist crisis has erupted - deepening from the pandemic, with severe consequences for the peoples, today as the aggression of the USA, NATO and the EU escalates around the globe, and the imperialist rivalries between USA-China but also other powerful capitalist countries, intensify, the action of the Communist Parties acquires special importance. The intervention of the Communist Parties in the labor and popular movement in an anticapitalist - antimonopolist direction is what can repel the attack on workers' rights, but also open a hopeful perspective for the interests of the peoples.

Today millions of workers around the world realize that there is no way out in the context of the capitalist mode of production, of the domination of monopolies and the capitalist market. Today the necessity and timeliness of workers' power, socialization of the means of production, central scientific planning, of Socialism, become more obvious. The experience of socialist construction in the 20th century shows the superiority of socialism in the protection of health, in safety, in work, in the extensive social protection and these are not erased by the counter-revolutionary overthrows.

Developments as a whole place serious responsibilities on the communist movement. They emphasize the need for a political-ideological counterattack on the basis of Marxism-Leninism and Proletarian Internationalism. The course of revolutionary regroupment of the communist movement will require the restoration of the revolutionary principles but also the critical examination of the historical course of the movement in each country, the intensification of the struggle against opportunism. It is a difficult but necessary course for the organization and development of the class struggle, for the defense of the interests of the working class, of the poor popular strata, in the struggle for the revolutionary overthrow, for the abolition of the exploitation of man by man.

**Comradely,**

**Дорогие товарищи по Партии коммунистов США!**

Мы получили ваше поздравление с 30-летием со дня основания ВКПБ. Мы благодарны вам за поздравление и, в свою очередь, шлём вам пролетарский привет и приветствие намеченному съезду Партии коммунистов США.

Борьба трудящихся Соединённых Штатов Америки против капитализма имеет важное всемирное значение. Вам, американским коммунистам, приходится бороться за прогресс и социализм в самом логове мирового империализма.

Мы знаем и помним славную историю борьбы американских коммунистов, начиная с 1919 года, продолжая «переходными» 1920-ми и «кризисными» 1930-ми годами. Мы с благодарностью вспоминаем акции солидарности с СССР американских коммунистов во время Второй мировой войны и их борьбу за открытие второго фронта в Европе. Мы помним, каким преследованиям и репрессиям подверглись американские коммунисты с началом «холодной войны» и временами маккартизма в 1950-е годы.

XX съезд КПСС в 1956 году означал начало реакционного поворота не только в СССР, где с подачи Хрущёва началась разнузданная антисталинская кампания, но и в международном коммунистическом движении, где подняли голову ревизионисты и ренегаты.

Тем более отрадно нам видеть в США Партию коммунистов, которая верна идеям Маркса, Энгельса, Ленина и Сталина, которая продолжает революционный путь, начатый первыми поколениями коммунистов.

Часы истории не дано остановить никому. Мировому империализму противостоит международное коммунистическое движение, которое в пламени революций будет очищаться от налётов ревизионизма. Важное значение будет иметь и солидарность между советскими и американскими коммунистами.

Мы будем рады установлению братских отношений между нашими партиями, будем крепить единство борьбы на международном уровне.

**Пролетарии всех стран, соединяйтесь!**

*International Greetings to the 2nd Congress of the Party of Communists USA*

Dear comrades in the Party of Communists USA!

We have received your congratulations on the 30th anniversary of the founding of the VKPB. We are grateful to you for your congratulations and, in turn, we send you proletarian greetings and greetings to the planned congress of the Party of Communists USA.

The struggle of the working people of the United States of America against capitalism is of great global importance. You, the American communists, have to fight for progress and socialism in the very den of world imperialism.

We know and remember the glorious history of the struggle of the American Communists, starting in 1919, continuing with the "transitional" 1920s and the "crisis" 1930s. We remember with gratitude the actions of solidarity with the USSR of the American Communists during the Second World War and their struggle for the opening of a second front in Europe. We remember how American Communists were persecuted and repressed with the beginning of the Cold War and the times of McCarthyism in the 1950s.

The XX Congress of the CPSU in 1956 marked the beginning of a reactionary turn not only in the USSR, where an unbridled anti-Stalinist campaign began at the instigation of Khrushchev, but also in the international communist movement, where revisionists and renegades raised their heads.

We are all the more pleased to see in the United States a Party of Communists that is true to the ideas of Marx, Engels, Lenin and Stalin, which continues the revolutionary path started by the first generations of communists.

No one can stop the clock of history. World imperialism is opposed by the international communist movement, which in the flames of revolutions will be cleansed from the raids of revisionism. Solidarity between Soviet and American Communists will also be important.

We will be glad to establish fraternal relations between our parties, we will strengthen the unity of the struggle at the international level.

Dhaka, Bangladesh.

Dear Comrades,

Warm revolutionary greetings from Bangladesh Youth Union (BYU).

We express our total solidarity with the Party of Communists USA.

We are watching that, Capitalism is facing its own doom, neoliberalism has failed as its own predictable consequence. The worldwide COVID pandemic exposed the hollowness of capitalism. People are looking for a solution in socialism; this is why imperialist capitalists are desperate to strike down the socialist powerhouses around the world. As a result, socialist Cuba is facing a pseudo-counter-revolution led by mafias financed by the imperialist USA. Using such economic strikes against people's revolutionary governments around the world is not a new American conspiracy. We are glad to see your demonstrations for solidarity with Cuba.

On the occasion of the 2nd Congress of the Party of Communists USA, we like to congratulate all comrades of PCUSA and wish all the success of your congress. We hope, we will continue our common struggle against imperialism, capitalism, and fascism in the hopes of building socialism-communism shall overcome in our lifetime.

Together we stand, we stand strong. Long live the revolution.

With Best Regards

Delegates and guests of the Second  
Congress of the Party of Communists  
United States of America

Dear comrades!

Dear friends!

The Central Committee of the Communist Party of Belarus warmly and cordially welcomes the delegates and guests of the Second Congress of the Party of Communists of the United States of America. Its holding in the conditions of a pandemic is the most important political event in the life of your party and the international communist and labor movement, because it will sum up the results of the work during the reporting period and determine the strategy of the fight against imperialism, capitalism and globalization in the future.

The Party of Communists USA is actively working, thanks to which it has gained great authority among ordinary workers of the city and rural areas. Members of your party are actively involved in working with young people, which confirms the existence of a left-wing youth organization that closely cooperates with the World Federation of Democratic Youth. Moreover, for the first time since the 1990s, US Communists participated in elections at the Vermont state level.

The Communist Party of Belarus expresses its firm confidence that the Communists of the United States, based on the Marxist-Leninist doctrine, will continue their struggle for the rights of the working people, will make every possible effort for the triumph of the principles of genuine democracy, social justice, internationalism and friendship of peoples.

We are convinced that the US Communists will be able to exert political pressure on the anti-people government of the United States, and will support the Communist Party of Belarus and the Belarusian people in their fair struggle with global capital for their sovereign choice, for the right to independent development.

We wish the delegates and guests of the Second Congress of the Party of Communists of the United States of America fruitful work, making constructive decisions aimed at further strengthening and developing the Communist movement of the United States.

With communist greetings,

First Secretary CPB

To the delegates of the II Congress of the Party of Communists USA,  
Dear comrades,

The Central Committee of the Communist Party of Belgium (PCB-CPB) greets the delegates of the Second Congress of the Party of Communists USA and wishes them a successful congress.

From Belgium, an imperialist auxiliary of the US and the EU, we follow with great interest the evolution of your party, which, breaking with reformism and opportunism, is working to organize the vanguard of the working class of the United States, in the most aggressive imperialist center against the workers of its country and against the peoples of the world.

We know how difficult it is to organize in this moment when anti-labor and anti-people policies hit the working class on both sides of the Atlantic in the sole interest of the monopolies. In recent months, we have watched how bourgeois policies have favored the pharmaceutical monopolies at the expense of the health of the working class, and we watch as communists organize the struggle for the emancipation, rights, and health of our class.

We salute the PCUSA for continuing the glorious and historic struggle of the U.S. working class and communists against capitalism, against its organizations such as NATO, for socialism and peace.

We again wish you a successful convention and look forward to maintaining and strengthening the contacts and ties between our two parties.

Workers of the world unite!  
Long live proletarian internationalism!

Aux délégués du IIe Congrès du Parti des Communistes USA,

Chers camarades,

Le Comité Central du Parti Communiste de Belgique (PCB-CPB) salue les délégués du IIe Congrès du Parti des Communistes USA leur souhaitant un congrès plein de succès.

Depuis la Belgique, impérialisme supplétif des USA et de l'UE, nous suivons avec grand intérêt l'évolution de votre parti qui, rompant avec le réformisme et l'opportunisme, travaille à l'organisation d'avant-garde de la classe ouvrière des États-Unis, dans le centre impérialiste le plus agressif contre les travailleurs de son pays et contre les peuples du monde entier.

Nous savons quelle est la difficulté de s'organiser alors que les politiques antiouvrières et antipopulaires frappent similairement la classe ouvrière des deux côtés de l'Atlantique pour le seul intérêt des monopoles. Ces derniers mois, nous avons observé comment les politiques bourgeoises ont favorisé les monopoles pharmaceutiques au détriment de la santé des couches populaires et observons comment les communistes organisent la lutte pour l'émancipation, les droits, la santé de notre classe.

Nous saluons le PCUSA qui poursuit le glorieux et historique combat de la classe ouvrière et des communistes des États-Unis contre le capitalisme, contre ses organisations tels que l'OTAN, pour le socialisme et la paix.

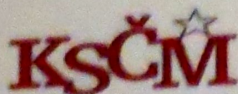

Nous formulons à nouveau nos vœux de succès de votre congrès et nous réjouissons d'entretenir et de renforcer les contacts et les liens entre nos deux partis.

Prolétaires du monde entier unissez-vous !

Vive l'Internationalisme prolétarien !

PARTY OF COMMUNISTS USA /PCUS/

International Department of the CC of the PCUSA

In Prague, July, 15th, 2021

Dear comrades, dear friends,

Communist Party of Bohemia & Moravia is sending its most cordial greetings to the 2<sup>nd</sup> Congress of the Party of Communists USA (PCUS). We salute every its member, expressing our both respect and appreciation to whole Your party for the enormous work which You are doing so bravely for the benefit of the working people.

We hope that the relations between our two parties will be developed further based on common tasks such as fighting capitalist crisis all around the world and fighting for better living standards of ordinary people. We believe in a better tomorrow and it's important to empower the next generation to build a better and peaceful world.

Your congress takes place at a very difficult time, when the Covid-19 pandemic has hit the world, bringing great suffering and social and economic hardship to the countries. The crisis affected mainly the poorest and most socially weakest groups of citizens and countries, the gap between the rich and masses of socially deprived people is widening further and inevitably leads to exacerbated social upheavals. At the same time, the pandemic accelerated and exposed the insurmountable contradictions of selfishness-based capitalism, the reckless pursuit of profit at all cost, including the liquidation of social systems, threats to the health of citizens, ecology and international law. Nor will it stop at the outbreak of war, gross interference in the internal affairs of independent countries and the threat to peace and stability in the world. Pandemic has confirmed the correctness of the conclusions of K. Marx about an anti-human nature of capitalism.

We believe that the conclusion of the congress will provide an answer to these acute problems and will be inspiration for other communist and worker's parties in the world striving to build a socially just society, socialism.

You have the support and solidarity not only of the CPB&M, but also of all the progressive forces and nations of the world, of which the Party of Communists USA is a very important part.

We wish you You enough strenght and a lot of success.

Long live peace, friendship and solidarity among nations.

Most sincerely comradely greetings,

Vojtěch Filip  
Chairman of the CPB&M

### **To the II Congress of the Party of Communists USA**

**Dear comrades delegates and guests of the II Congress of the Party of Communists USA !**

Please accept congratulations and wishes for successful work from the Central Committee of the COMMUNIST PARTY COMMUNISTS OF RUSSIA!

We are closely watching the process of the formation of a new Communist Party in the United States. Our party also went through such a path in Russia, when 15 years ago it started creating the second Communist Party in our country. We know from our personal experience that it is not easy to act and create a new organization. This is always accompanied by a comparison with the already existing Communist Party. But the achieved result pays for these difficulties.

In September of this year, the COMMUNISTS OF RUSSIA will take part in the elections to the country's Parliament - the State Duma for the second time. The increased confidence of the people allowed the party to elect several hundred deputies of municipalities in different regions of Russia , deputies of 5 regional parliaments. Our comrades use the elections and deputy tribunes to promote the ideas of socialism and attract people to the ranks of the party.

Our party pays great attention to international relations with communist and labor parties of other countries. We hope that the PARTY OF COMMUNISTS USA will continue its development and achieve new successes in the next five-year plan. And the existing examples of our inter-party cooperation will increase many times.

Our common goal is peace on the planet and getting rid of human exploitation by man. We wish our American comrades great moral and physical strength in achieving this goal and our common victory!

To the Party of Communists USA  
To the delegates of the 2nd Congress

Dear Comrades,

The Communist Party of Sweden sends fraternal greetings to the Party of Communists USA on the occasion of your 2nd Congress.

As your 2nd Congress draws near the world has yet to shake itself from the grip of the COVID-19 Pandemic. Throughout it has been the working peoples of the world who have been forced to carry the great burden of this pandemic, and of the preceding economic crisis exacerbated by the pandemic. As the suffering under capitalism increases, the system at the root of the suffering reveals itself to be both unable and uninterested in mitigating the suffering it causes. This leads to discontent amongst the working peoples, a discontent that can germinate into a mindset critical of the system they live under.

Without the guidance of a Marxist-Leninist vanguard party, this critical mindset is likely to be waylaid by reformism or, even worse, the most reactionary tendencies. The vanguard party must expose and explain, to the working peoples, the capitalistic system that causes their suffering and discontent. It must show that the solution is not to be found within the framework of that system, but in abolishing it through revolution and the construction of a new system: socialism.

The idea of the vanguard party is thus as important now as it has ever been and so is the task of building such parties that can successfully fulfill their historical roles.

The Communist Party of Sweden follows the struggle of American communists with interest. We hope for a successful 2nd Congress of the Party of Communists USA that will further prepare your Party for the coming struggle.

Long live proletarian internationalism!  
Long live Marxism-Leninism!

## **SALUDO DEL PARTIDO COMUNISTA DE LOS PUEBLOS DE ESPANA (PCPE) AL SEGUNDO CONGRESO DEL PARTIDO DE LOS COMUNISTAS DE EEUU (PCUSA)**

Estimados y estimadas camaradas:

En nombre del Comité Central del PCPE, reciban un saludo fraternal e internacionalista en la constitución y desarrollo de su 2º Congreso que comienza en la presente fecha.

A todos los partidos comunistas que nos une el objetivo de superar el sistema capitalista por inhumano e injusto, nos emplaza la necesidad de actualizar la táctica para reforzar la estrategia. Por ello, la convocatoria de este congreso del PCUSA es de una enorme importancia, para encontrar el camino que desarrolle las contradicciones del capitalismo a partir del desarrollo de la lucha de clases en el corazón de la primera potencia imperialista del planeta.

Al PCUSA y al PCPE también nos une la pertenencia de nuestros países a la organización militar del imperialismo como es la OTAN, que interviene cruelemente contra los pueblos que osan enfrentarse a sus miserables intereses. La lucha popular en este frente también requiere de la unidad y organización en torno a un Frente Mundial Antiimperialista que agrupe a las clases populares en la lucha por la paz y contra las devastadoras consecuencias que tiene para la humanidad las guerras del imperialismo.

Les deseamos los mayores éxitos en su trabajo congresual y en la consecución de los propósitos perseguidos.

OF THE PARTY OF THE COMMUNISTS OF THE USA (PCUSA)**

Dear comrades:

On behalf of the Central Committee of the PCPE, receive a fraternal and internationalist greeting in the constitution and development of your 2nd Congress that begins on the present date.

To all the communist parties that unites us with the objective of overcoming the capitalist system as inhuman and unjust, we are urged to update the tactics to reinforce the strategy. For this reason, the convocation of this congress of the PCUSA is of enormous importance, to find the way that develops the contradictions of capitalism from the development of the class struggle in the heart of the first imperialist power on the planet.

It unites the PCUSA and PCPE belonging of our countries to the military organization of imperialism such as NATO, which intervenes cruelly against the peoples who dare to confront its miserable interests. The popular struggle on this front also requires unity and organization around an Anti-imperialist World Front that unites the popular masses in the fight for peace and against the devastating consequences that the wars of imperialism have for humanity.

We wish great success in congressional work and in the achievement of the objectives pursued.

## **Greeting from the Communist Party of the Workers of Spain to the 2<sup>nd</sup> Congress of the Party of Communists USA (PCUSA)**

Dear comrades,

From the Communist Party of the Workers of Spain (PCTE), we would like to send you this brotherly greeting on behalf of the Central Committee of our Party and of all our militancy on the occasion of the holding of your Second Congress. We also wish you a fruitful discussion on this important date for the development of your Party.

The Congress you are holding takes place under very particular conditions for the development of the world class struggle, amidst the global COVID-19 pandemic. The capitalist crisis we are experiencing, accelerated by the pandemic, has revealed the most inhuman side of the capitalist system, whose terrible outcomes are being borne by the working class and the people's strata all over the world. As usual, it is the working class who once again carries the burden of the global crisis on its shoulders, moreover, this time it is also paying for the results of the disastrous capitalist management of the health crisis with its lives.

In this context, it is more necessary than ever to strengthen the Communist Parties that represent the interests of the working class and the people's strata, especially in countries like yours, where anti-communism is particularly intense and its role in the inter-imperialist struggle is so great. Only a Communist Party that organizes the working masses towards the seizure of power can carry out a revolutionary project that changes the course of history in the United States and guarantees peace and internationalist solidarity.

We hope that the discussions of this Congress will take you closer to your aims and we hope that the congress process will allow the PCUSA to bring about better conditions in order to face the class struggle in our current grave moment.

We send you a fraternal and internationalist greeting.

Esteemed comrades,  
**Party of Communist of USA (PCUSA)**

The Political Bureau of the Communist Party of Venezuela (PCV) sends its warmest greetings and congratulations to the 2nd National Congress of the PCUSA. We wish you all the best in the organization and holding of this Congress, from which we are sure important resolutions which will contribute to the strengthening of the Party and its intervention in the working and revolutionary struggles of the USA will arise.

The PCUSA is an important reference point for the resistance and articulation of the struggle of the North American working class for its rights, but also of the peoples of the world who directly suffer from US imperialist aggression and who find firm solidarity and consciousness in the PCUSA.

From the PCV we thank you for your constant and active solidarity with the Venezuelan people in the context of increasing attacks from the US government. Particularly, we thank you for your backing of the struggles of the Venezuelan working class and our Party. As you know, Venezuelan workers and popular sectors are facing a double offensive: on the one hand the systematic imperialist assault and illegal unilateral sanctions; and on the other hand a new pact of elites which looks to "resolver" the deep crisis which ravishes the country in favour of Capital through sacrificing workers' and popular sectors' victories and rights.

In general, the structural crisis of the global capitalist system, which is now deepened due to the impact of the pandemic, is manifesting itself in new attacks against workers' historic rights and gains by capitalist governments. Added to this is the strengthening of imperialist attacks in the context of a ferocious competition for markets, natural and energy resources, and commercial routes. Here we observe the importance of strengthening our solidarity and articulation with the global working class and the International Communist Movement.

Finally, we wish to reiterate our firm solidarity with the struggles of the North American working people. We hope to continue strengthening the ties of friendship, solidarity and activities with our sister Parties.

We, Democratic Youth Federation of India's Central Executive Committee extends revolutionary greetings to the 2<sup>nd</sup> Congress of the Party of Communists, USA.

2<sup>nd</sup> Congress of your organisation is happening at a time when the world has been devastated by Corona Pandemic. There have been immense job losses and other tragedies during this pandemic. Apart from Covid, imperialist aggression was also raging like an epidemic in the world. Despite the call from the United Nations for a ceasefire, we could witness inhuman imperialist occupations and blockades across the world. The greatest conflict of our time is between humanity and imperialism !

We in India are strengthening our struggle against ongoing multifaceted attempt by US imperialism to totally subordinate India and to exploit our country's labour and natural resources at will. Imperialists have not succeeded in subjugating the whole of humanity. The growth of multipolarity and regionalism will confront US imperialism.

It is heartening to see that in this bleak situation too your organisation has been systematically organising people in various parts of USA and has been valiantly standing up against imperialist aggressions of USA. We hope that the Congress will decide to unleash a wave of relentless struggles against the US imperialist bloc and against the exploitation of working poor and you will be surging ahead with much revolutionary fervour. We wish our American comrades great strength for their struggles in the future.

Comradely yours

Avoy Mukherjee

Message of Greeting to the 2nd Congress  
of the Party of Communists USA

Dear Comrades,

More than ever: Its up to us, the workers and working class youth of the main imperialist countries, to build the front against this main enemy of the peoples and workers — and thus not only to turn the situation around in our own country, but also to make a decisive contribution to the liberation of, peoples all over the world.

It is up to us!

US imperialism is no different from German imperialism, which has sparked two world wars and is preparing for the third: Their “order” is at an end. They may appear strong as long as the working class is not fighting. But the old rules of capitalist economy are no longer enough to secure maximum profit. There is a crash in the economy and politics of the imperialist core countries and there is no end to their crisis. The effort to maintain this system a little longer is paid for all the more by the peoples of the world with their blood and their lives.

It is high time that we overcome the crisis of the workers’ movement and learn the lessons of our defeats. The Paris Commune 150 years ago, the victorious October Revolution and the temporary defeat of socialism, the path of many people’s democracies back to capitalism prove every day: Only the working class can save humanity from annihilation and our struggle is international; only the Communist Party can lead the class to revolution and only a fighting and vigilant working class can defend the revolution against the new and old bourgeoisie; our compromises to the class enemy and opportunism in our own ranks have put the international working movement and all humanity in this position — where it would be so easy and yet so hard to send capitalism to the museum and build a new world without exploitation, racism and war.

Let us learn in the unification of the world proletariat and in the common struggle for a new Red October!

In this sense, we wish your congress a revolutionary course!  
Friendship!

Al Presidium e ai delegati del II Congresso Partito dei Comunisti degli USA (PCUSA)

Cari compagni, l'Ufficio Politico del CC del Fronte Comunista, a nome di tutti i nostri militanti, saluta calorosamente il Presidium e i delegati del II Congresso del Partito dei Comunisti degli USA.

Seguiamo da vicino l'attività del vostro partito, un partito di recente formazione, ma che porta l'eredità della lunga, gloriosa ed eroica storia dei comunisti statunitensi.

Un Partito che ha saputo rompere con il revisionismo, il riformismo e l'opportunismo per mantenere alta, con coraggio, la bandiera del marxismo-leninismo e della rivoluzione proletaria nel cuore stesso di una delle principali centrali imperialiste.

Siamo consapevoli delle enormi difficoltà che dovete affrontare, proprio perché agite all'interno di una delle potenze imperialiste più potenti e aggressive, per ripristinare l'autonomia di classe del movimento operaio statunitense, come premessa necessaria affinché esso possa svolgere il suo ruolo storico di liberatore della società dallo sfruttamento capitalistico e di costruttore di un futuro socialista.

Per fronteggiare l'agonia di un capitalismo in putrefazione che passa di crisi in crisi, di guerra in guerra e rischia di trascinare l'umanità intera e la stessa Terra nell'abisso della sua rovina, l'azione del Partito Comunista come avanguardia organizzata della classe operaia è di importanza fondamentale. Non importa tanto la sua consistenza numerica, quanto la coerenza delle sue posizioni politico-ideologiche e la disciplina cosciente dei suoi militanti.

Con questa consapevolezza salutiamo il vostro Congresso, auspicando un rafforzamento delle relazioni tra i nostri due Partiti. Vi auguriamo un fruttuoso e proficuo lavoro nell'interesse del proletariato e ulteriori successi nella nostra comune lotta per un mondo libero dallo sfruttamento, dall'ingiustizia, dalla miseria, dalla guerra imperialista, per il Socialismo-Comunismo.

PROLETARI DI TUTTI I PAESI, UNITEVI!

FRONTE COMUNISTA

L'Ufficio Politico del Comitato Centrale

To the Presidium and the delegates of the Congress of the Party of Communists of the USA (PCUSA)

Dear comrades, the Political Bureau of the CC of the Communist Front (Italy), on behalf of all our militants, warmly greets the Presidium and the delegates of the 2nd Congress of the Party of Communists of the USA.

We closely follow the activity of your party, a recently formed party, but carrying the legacy of the long, glorious and heroic history of US communists.

A party that has been able to break with revisionism, reformism and opportunism, and courageously keeps high the flag of Marxism-Leninism and the proletarian revolution in the very heart of one of the major imperialist centers.

We are aware of the enormous difficulties you have to face, precisely because you act inside one of the most powerful and aggressive imperialist powers, to restore the class autonomy of the US labor movement, as the necessary premise for it to carry out its historic role as the liberator of society from capitalist exploitation and the builder of socialist future.

To face down the agony of a rotting capitalism that passes from crisis to crisis, from war to war and risks dragging the whole of mankind and the Earth itself into the abyss of its ruin, the action of the Communist Party as the organized vanguard of the working class is of crucial importance. Its numerical strength does not matter as much, as the coherence of its political and ideological positions, and the conscious discipline of its militants.

In this belief, we greet your Congress, hoping for a strengthening of relations between our two Parties. We wish you, dear comrades, a productive and fruitful work to the benefit of the proletariat and further successes in our common struggle for Socialism-Communism and a world free from exploitation, injustice, misery, and imperialist wars.

COMMUNIST FRONT (ITALY)

The Political Bureau of the Central Committee

Dear comrades,

The Communist Party of Germany sends you warm and comradely greetings. Our party was found in the last year of the GDR in reaction to a coup of a right-wing opportunistic group that took over the Socialist Unity Party of Germany (SED). Ever since our party strictly combats revisionism, reformism and defends Marxism-Leninism. It's a necessity to us to ensure the unity of all communists in Germany. We are aware that only a united communist party with Marxism-Leninism as its ideological foundation will be able to lead the proletarian revolution, thus we wholeheartedly support each and every single letter of your 8 Points of Unity. Since Germany was "reunited" in 1990 we are also active in West Germany and know too well the difficult task of establishing a communist party in the most reactionary center of imperialism. We send to your congress our best wishes for success and to your young party our best wishes for growth and prosperity. In the spirit of proletarian internationalism we look forward to start and develop the relationships between our parties, since we monitor the progress and success in building up your party with much interest.

Best Regards

Dear Comrades,

The New Communist Party of Britain sends fraternal greetings to our comrades who will soon be taking part in the Second Congress of the Party of Communists USA.

In the imperialist heartlands the struggle to put the communist answer to the capitalist crisis back on the streets is never easy least of all in America where anti-communist hysteria is projected through every level of society by the ruling class and the mainstream media that serves the ruling circles of the United States.

Your congress comes at a time of intensifying struggle against austerity throughout the imperialist world. Though the some of the most reactionary and aggressive sections of the US ruling class suffered a setback when Donald Trump was defeated last year the Biden administration has not abandoned US imperialism's dream of world domination. The primary contradiction in the world today is still between American imperialism and the rest of the world it seeks to dominate.

Five years ago the comrades who established the PCUSA took a decisive step towards restoring the communist movement in the USA and helping to build the mass movements that are fighting for peace and building the fight-back against the creeping fascism of the bourgeois state.

We stand for peace and socialism. Peace because only the oppressors and exploiters want war. Socialism because it is essential to eliminate exploitation, unemployment, poverty, economic crisis and war.

Socialism is the only solution to climate change, pollution and global warming. Let us work together to build the movement that will ensure that this century becomes the era of socialism.

We wish all your comrades well and look forward to reading about your conclusions in the very near future.

All the best,

Andy Brooks

We wish you a productive discussion on your future tasks and struggles, and the best outcome.

May the solidarity, friendship and cooperation between our two parties and peoples of the our two countries be further strengthened and developed.

**To the Second Congress of the Party of Communists of the USA.**

Receive the greeting of the Central Committee of the Communist Party of Mexico on the occasion of the Second Congress of the Communist Party of the Usa.

Today the communists of North America face the need for a policy based on proletarian internationalism to oppose the USMCA and the anti-immigrant policies of the bourgeois governments of Mexico, Canada and the US. Of a true class policy to organize and put the multinational proletariat on a fighting footing against the monopolies. Of a policy of principles so as not to succumb under any side in the inter-imperialist dispute between the US, the EU, China and Russia, and not to end up raising other people's flags. Of a clear anti-capitalist, anti-monopoly policy, in favor of socialism-communism.

Much damage has been done to the communist cause and to the workers' movement by the appreciation that there is a «left» of the bourgeoisie, a lesser evil. Thus has been seen the tragedy of supporting the Democratic Party, which is a party of imperialism, to oppose the Republican Party, which is also a party of imperialism. A dead end for the WORKING CLASS in the US into which there is no need to fall, or in other countries participation in bourgeois governments, or support for «progressive» bourgeois efforts.

We are convinced that no change in favour of the working class will occur without the existence and activity of the communist parties, so ensuring their existence is a vital necessity of the class struggle.

*Proletarians of all countries, unite!*

**The Central Committee of the Communist Party of Mexico**

Comrades of the Party of Communists USA

French communists loyal to Marxism-Leninism and proletarian internationalism, all true progressives in France and around the world, greatly appreciate the remarkable contribution of your party to the struggle of the international communist and anti-imperialist movement.

In this period still dominated by counterrevolution, fascism and neo-McCarthyism, the march towards imperialist wars fomented by NATO with the support of the EU, while the viral pandemic spread, show the extent to which neoliberal globalisation cannot be 'protective', but on the contrary, fosters the worst scourges for our countries and for humanity. Your party's existence and your international influence help all communists in France and around the world, and all those who realize how much a fighting communist party is or would be needed in every country and how a great united international communist movement on a world scale is indispensable, applying with initiative the great teachings inherited from Marx, Engels and Lenin.

While in France our people are under furious attack from the neo-thatcherist, Atlanticist and Euro-vassal government of Macron and our nation is threatened by both Le Pen's xenophobic line and repeated violent attacks of islamic terrorism, we are working to give back to the working class the indispensable tools to resist, fight and win our struggle. And, like you, our struggle remains unwaveringly and strategically committed to socialism and communism.

Estimados camaradas:

EL Partido Vanguardia Popular, el histórico partido de los comunistas costarricenses fundado en junio de 1931, saluda fraternalmente el 2do Congreso del Partido de los Comunistas de los Estados Unidos de América, (PCUSA).

No cabe duda de que la lucha de los comunistas, en el corazón del imperio, es tan difícil como la que enfrentamos los comunistas de todo el mundo contra los intereses de una élite militar y financiera norteamericana que saquea y destruye la humanidad y su hogar, la madre tierra.

Estamos completamente seguros de que el Congreso de vuestro partido consolidará las bases del camino trasado en el año 2014 y contará con un fuerte respaldo de la clase trabajadora y el pueblo norteamericano, en todos los Estados de la Unión Americana. El Partido de los Comunistas de Estados Unidos es el partido político de la clase trabajadora y su lucha es por los intereses de todos los trabajadores y de todos los pueblos oprimidos por una sociedad socialista, en el camino de la construcción del comunismo.

Aunque todavía el fantasma del macartismo recorre Estados Unidos, hay una creciente organización popular, obrera y campesina con los comunistas como guías en la construcción por un mejor futuro para toda la humanidad.

Es por eso que estamos seguros de que contaremos con la solidaridad mutua con todos los pueblos que luchan por su libertad y autodeterminación, como la causa palestina, contra el militarismo, la guerra y la muerte contra los hermanos de Cuba, Venezuela, Nicaragua, y muchos otros pueblos del mundo.

Nuestro abrazo fraterno y solidario, fortaleciendo los lazos de amistad y colaboración entre nuestros partidos por una causa común.

Dear comrades:

The Popular Vanguard Party, the historic party of Costa Rican communists founded in June 1931, fraternally greets the 2nd Congress of the Communist Party of the United States of America (PCUSA).

There is no doubt that the struggle of the communists, in the heart of the empire, is as difficult as the one that we communists around the world face against the interests of an American military and financial elite that plunders and destroys humanity and its home, mother Earth.

We are completely sure that the Congress of your party will consolidate the foundations of the path taken in 2014 and will have strong support from the working class and the American people, in all the States of the American Union. The Communist Party of the United States is the political party of the working class and its struggle is for the interests of all workers and all peoples oppressed by a capitalist society, on the road to building communism.

Although the ghost of McCarthyism still haunts the United States, there is a growing popular, worker and peasant organization with the communists as guides in building a better future for all humanity.

That is why we are sure that we will have mutual solidarity with all the peoples who fight for their freedom and self-determination, such as the Palestinian cause, against militarism, war and death against the brothers of Cuba, Venezuela, Nicaragua, and many other peoples of the world.

Our fraternal and supportive embrace, strengthening the ties of friendship and collaboration between our parties for a common cause.

**Message of greetings of the Party of Labour of Austria (PdA) to the 2nd congress of the Party of Communists USA (PCUSA)**

Dear comrades,

The Central Committee of the Party of Labour of Austria sends fraternal greetings and congratulations to the delegates of the 2nd Congress and all the members of the Party of Communists USA.

We highly appreciate the development of the PCUSA as a Marxist-Leninist party of the working class in the US. It is very important that an ideologically firm, revolutionary and anti-imperialist party wages the struggle in the lion's den. We are closely following the developments in the United States as well as the struggles of your party. Running a candidate for congress in Vermont as an open Communist was an important decision and achievement. During your campaign you highlighted the needs of the working class, condemned the imperialist interventions and wars of the US and its allies, and pointed towards the only alternative for the workers and the people, namely socialism-communism.

The PdA expresses its solidarity with the working class and popular social strata in the USA that suffer under the bourgeois management of the pandemic and the capitalist crisis. The capitalist system is not in the position to protect the health and livelihoods of the people. In Austria, as in the US, the bourgeois government and the other bourgeois parties bear great responsibilities. The PdA calls on the working class to form a militant workers' front and to struggle together with the other popular social strata against the capitalist management of the crisis and in defense of their rights and interests. Moreover, our party condemns the imperialist plans and interventions of the United States, the NATO, and the EU. It opposes any involvement of Austria in those machinations and rejects participation in all imperialist organizations and alliances of capitalist countries.

In the 8 years since its foundation, the Party of Labour of Austria has made important steps towards constructing a revolutionary working-class party based on the principles of Marxism-Leninism and the analysis of the contemporary development of the capitalist and imperialist system. As a party we have still a long way to go, both organizationally as well as ideologically. However, while other forces have been dragged behind social democracy in the labour movement supporting reformist demands, criticizing 'neoliberalism' and whitewashing other forms of capitalist management, blindly following 'movements' incited by the bourgeois class, directly or indirectly supporting a 'green' capitalist reconstruction, aligning themselves with opportunist, liberal and reactionary forces, the PdA has hold a firm stance for the workers' true interests and needs, against imperialist interventions, ethnic and religious segregation, for proletarian internationalism, for socialism-communism.

Internationalist solidarity and the deepening of the relations between Communist and Workers' Parties have a high priority in the activity of our party. In the period ahead, it will be vital that revolutionary Communist and Workers' Parties form a common front against the influence of opportunism and of interests foreign to those of the working class. The

international communist movement must once again come to the foreground and lead the struggle for the needs and rights of the working class and the poor popular social strata. It must once again point the way to socialism-communism as the only way-out from the crisis in the interest of the workers and the peoples.

We wish your party congress fruitful deliberations and great success, and we look forward to strengthening the fraternal relations between our parties in the period ahead.

Long live the PCUSA!  
Long live Marxism-Leninism!  
Long live Proletarian Internationalism!

### Greetings on occasion of the II Congress of PCUSA

**Dear comrades in arms!**

**Russian Communist Workers Party** greets delegates of the **II Congress of PCUSA** and wishes the congress all success in finding ways to strengthen the party as organizer of class struggle of the working class and all working people!

Dear comrades, we are aware that you work under special conditions, i.e. in the midst of the imperialist world, in the country that is a backbone of the world system of capitalism, that is the main source of reaction, that suppress fight of working people for freedom both in USA and worldwide.

We fully support your decision to part with the opportunism of the old party, to part with their conciliation and attempts to adapt to capitalism as a loyal opposition. Nevertheless, it's not nearly enough to break away from opportunism verbally and to gain right to take part in elections, the main task is to gain authority among working class and to mobilize this class to struggle for its own interests, i.e. for decent life for everybody, for socialism.

Soviet communists came to know on their own experience what is opportunism and degeneration of working people's power that led CPSU and soviet socialism to temporary defeat. The reasons for those processes were opportunism and revisionism that hit not only the party's leadership, but the masses of party rank and file as well. When CPSU led by Lenin and Stalin strictly adhered to Marxism, the society developed and made progress, whereas abandoning the positions of working class led to treason and defeat.

Unfortunately, nowadays the illness of opportunism and the right bias in the international communist movement have been increasing, and our common task is to give them a fight. We've been doing our best to strengthen the communist pole in the international communist movement. In particular we do it by way of participating in the "European communist initiative", issuing magazine "International communist review", defending existing socialism and promotion of the idea that each communist party should develop its revolutionary strategy. We do hope that we shall carry out this work together with your party.

We temporarily failed in USSR, but we lived under socialism and we know what it means. Socialism offers better solutions for many issues, these solutions in the interests of working people: guaranteed working places, free of charge education and healthcare, looking after children and elderly people,

Dear Comrades:

Activist Group Shiso-Undo would send to you a message of international solidarity on the occasion of the Second National Congress of the Party of Communists USA.

Since receiving the message of international solidarity from the International Department of your Central Committee on March 22, this year, we have been interacting with you by sending our English "Shiso-Undo News." And we heard that your party will hold the Second National Congress on August 28<sup>th</sup>. We sincerely hope that this Congress would be held successfully and that you would achieve fruitful results.

We are convinced that the present age is the era of the general transition from capitalism to socialism, and we are struggling for socialism every day in Japan. As in your country, hate crimes have been rampant in Japan, and the government and mass media are spilling bad publicity and bashing against neighboring People's Republic of China and the Democratic People's Republic of Korea every day. Under these circumstances, in Japan, chauvinism against Koreans in Japan appears in a violent manner, and basic human rights such as the right to education continue to be violated by the government.

We must not forget the history of Japanese imperialism colonizing the entire Korean Peninsula and invading China and other neighboring countries in Asia, but we have to continue to talk about, educate and remember that history. This is because "a nation that oppresses other nations cannot be truly free."

The armed forces of your country are building a network of aggression and counter-revolutionary tactics around the world to keep alive the capitalist system that has completed its historic mission. And the Japanese Self-Defense Forces have also built a system to dispatch invading troops all over the world under the command of the US military. Therefore, the Japanese and American military, and the Japanese and American capital behind them, are our common enemies, and you and we will need to drive jointly a wedge into their counter-revolutionary tactics.

We pay tribute to your party for its resolute struggle with the flags of socialism and proletarian internationalism at the ground of American imperialism. At the foot of Japanese imperialism, we also pledge to raise the flags of socialism and proletarian internationalism.

Hurray for the 2nd National Congress of the Party of Communists USA!

Hurray for Socialism and Proletarian Internationalism!

**SWAZILAND NATIONAL UNION OF STUDENTS MESSAGE OF GREATINGS**

**TO THE PARTY OF COMMUNIST USA**

**DEAR COMRADES**

Revolutionary greetings comrades, SNUS is the only union of students in the last absolute monarchy of Africa. We are currently an illegal union in the country as we try to pursue the call of academic freedom and the revolution.

Today as I write this message of greetings on the 4<sup>th</sup> of August 2021, tomorrow on the 5<sup>th</sup> of august I will be in court for my trial. Am telling u this because I want you to feel the essence of our struggle, so that as we unite with you in the fight against the oppression of our people, we may have a picture of one another's struggles.

Two months back King Mswati the third shot and killed close to a hundred of unarmed civilians, as we speak hundreds are still in hospitals because of gunshot wounds. This happened when thousands of the citizens went to the streets and demanded democracy.

We would like to congratulate the party on its achievements and growth throughout the years. We hope that your 2<sup>nd</sup> congress will be a success and we also hope that the incoming leadership will take the revolution much further so that workers of the world may lose their chains. We also look forward to your message of solidarity to the people of Swaziland.

We have nothing to lose but our chains, so let's unite.

**Solidarity Message from S U C I (Communist)**

Dear Comrades,

On the occasion of the 2nd Congress of the Party of Communists USA, our Party, Socialist Unity Centre of India (Communist), conveys to you our solidarity with your struggle. Your Conference is taking place at a time which presents challenges as well as opportunities in building up revolutionary struggles in the background of the most acute global crisis of capitalism and the danger of war. Economic collapse in the capitalist world has brought calamity in the life of the common people throughout the world. At the same time, the aggressive policies of USA and its allies in different corners of the globe are posing great threat to world peace, and are leading to disastrous consequences. . However it is heartening to see how so many people in America have come out in active protest against Government policies and are professing their solidarity for the affected. The working class of the United States will have to remain steadfast in its struggle against capitalist exploitation and oppression, against war-mongering policy of the state, against racial discrimination, and against migrant-bashing, with the ultimate objective of overthrowing the capitalist state machinery and establishing in its place a socialist state.

The overthrow of socialism through counter-revolution in Soviet Union, China and eastern European states has been celebrated by the entire capitalist world as the final triumph of capitalism and proclaimed that socialism is dead and buried, that Marxism is a failed ideology. Our Party guided by Marxism-Leninism and Thoughts of Comrade Shibdas Ghosh, a great Marxist thinker and our Founder General Secretary, has exposed the falsity of these statements and established that it is precisely deviation from Marxism-Leninism in the post-Stalin era, continued practice of revisionism, and

shortcomings in ideological struggles that has led to the temporary debacle of socialism. This debacle has dismantled and virtually destroyed many communist parties in the world. Our party was greatly pained but not disoriented as our founder teacher Comrade Shibdas Ghosh forewarned us long ago about this unfortunate possibility and accordingly educated us to view these with proper Marxist outlook.

We are sure that the burning issues on the strategy and tactics for organizing the people for the revolutionary battle in the contemporary global and national situation will be thoroughly discussed in your Conference and the correct political line will be formulated. We hope that while strengthening the anti-capitalist struggle in USA you will work for a coordination of the global struggle against imperialism and through this process deepen our mutual understanding. Let the working class parties of all countries unite in the struggle against capitalist policies of globalization-liberalization, fascism and war and for peace and revolution.

We express our deepest appreciation of and full solidarity with the struggle that your Party has pledged to wage holding high the banner of Marxism-Leninism in a land that is the fortress of capitalism-imperialism, in a state which acts as the demonic military-machine for perpetrating the rule of capital over the world. We sincerely wish all success to your Congress. We firmly believe that your deliberations will significantly contribute to the international working class movement and your future struggle will provide unending inspiration to the freedom- and peace-loving people of the whole world.

Long Live Party of Communists USA  
Long Live Proletarian Internationalism  
Long Live Anti-capitalist Revolution

Desde Argentina, el Partido de la Liberación (PL) envía un fraternal saludo revolucionario a los camaradas del Partido de los Comunistas de EEUU (PCUSA) con motivo de celebrar su II Congreso.

Aprovechamos esta ocasión para hermanarnos con vuestro partido comunista. Consideramos que en estos difíciles momentos que atraviesa la clase trabajadora mundial, es necesario que las organizaciones revolucionarias fortalezcamos nuestros lazos de unidad obrera y antiimperialista, por lo tanto tenemos que reforzar la unidad revolucionaria.

Entendiendo eso, tenemos presente el necesario fortalecimiento de las relaciones entre partidos Marxista-Leninistas fruto del trabajo que venimos realizando junto a otros partidos y organizaciones hermanas del continente y el mundo.

Nuestro partido exhorta a mantenernos vigilantes y luchar contra las atrocidades que viene cometiendo el imperialismo norteamericano y sus socios de la Unión Europea (UE) en contra de los pueblos del mundo, particularmente en Nuestra América, y en contra de sus respectivas poblaciones e inmigrantes. El PL de Argentina expresa la intención de estrechar nuestras relaciones. ## **SOLIDARITY MESSAGE TO THE PARTY OF COMMUNISTS USA**

**Makorokoto! Amhlope!**

**To our Comrades of the PCUSA on their 2<sup>nd</sup> Congress**

4<sup>th</sup> AUGUST 2021

Comrades in the struggle,

The relationship between our two parties is an interesting one. It started before either the PCUSA or the ZCP were launched, it was at the time when the National Council of Communists USA and the Zimbabwe Communist League began to compare notes that our relationship began.

On 28<sup>th</sup> April 2017 the Zimbabwe Communist League, the Zimbabwe Communist Group and the Northern Communists joined together at our Founding Conference to form the Zimbabwe Communist Party.

What brought the ZCP and the PCUSA together together was a mutual disdain of the Democratic Party in the USA, a recognition that the liberal-fascism of the Democrats was often more dangerous than the simplistic red-kneck racism of the Republicans.

We in Africa were traumatised by the 1998-2003 Congo War initiated by Bill Clinton, an almost unreported war which took millions of African lives in Africa's most mineral rich country.

We were further traumatised by the destruction of Libya by NATO. Sarkozy, Cameron and Obama not only destroyed Africa's most advanced country, a country with the highest Human Development Index (HDI) on our continent, but through their alliance with the Islamic State and al-Qaeda were responsible for genocide against black Libyans and the reintroduction of the slave trade. They also destroyed, deliberately, the chance for Africa to have its own currency, the Gold Dinar, independent of the Western banking system. We concur with the late Glen Ford that Obama was "not the lesser of evils, but the more effective evil."

Although the Biden administration is obviously something of an improvement for the people of the USA compared to that of the highly eccentric Trump, for the rest of the world, it is back to "War as usual."

In Zimbabwe we have a difficult job. Although there was a strong Communist tradition within ZAPU, the original and authentic national liberation movement, that tradition has largely been dissipated and even then, Marxism-Leninism was only understood by many as a tool to combat the white settler state. Few understood the question of national democratic and socialist development. We are starting virtually from the very beginning. But we do not have such a huge anti-Communist web of lies to combat as you Comrades in the USA.

What enthuses us is the fact that Communist Parties are emerging in many parts of the world. The tide which was against us in the 1980s and 1990s is now turning in our favour again.

The task of all Communist Parties is to develop cadres who are both politically educated and capable of deployment and leadership in the mass organisations and among the people. As recent developments in Bolivia have shown us, deep roots among the people are necessary not only to win power but to maintain it.

**Message of the Communist Party of Albania  
for the Party of Communists USA.**

**Dear friends!**

The Communist Party of Albania sends revolutionary greetings to the Party of Communists USA, and wishes full success to its 2nd Congress, which will be held on August 28, 2021.

The existence of the US Communist Party at the center of world imperialism, such as American imperialism, is a significant achievement and great support for the entire International Communist Movement. We think that your 2nd Congress is a very important event, where the program and activity of the party will be discussed, refined and approved, as well as the tactics of war in the way of the inevitable revolution of the working class against the oppression and capitalist exploitation. . At the core of this program, of the strategy and tactics of the Communist Party, it is necessary to have the immortal teachings of the great classics of communism, Marx, Engels, Lenin and Stalin, as well as the experience of true communist and Marxist-Leninist parties.

The Communist Party of Albania, the direct successor of the Communist Party (Albanian Labor Party) that founded and successfully led for 44 consecutive years (1941 - 1985) Our unforgettable leader, the prominent Marxist-Leninist, Enver Hoxha, is in it the same conditions with you, facing every day the local and international bourgeoisie, who with treachery and treachery, managed to restore their bourgeois-capitalist power in our country. Yet we have not for a moment ceased the struggle against this system, convinced that we have lost a battle, but not the struggle until the final victory over this anti-people and anti-human regime.

The unforgettable leader of the Albanian people, Enver Hoxha, since the mid-eighties of the last century, had determined that "The world is at a stage when the issue of revolution and national liberation is not only an aspiration of a perspective,

but also a problem posed for solution »(E. Hoxha, Report at the 7th Congress of the Albanian Labor Party). This definition, we think, is coherent even today, when American and world imperialism, gripped by the deep political, economic and social crisis, is raging and endangering the resurgence of Nazism, threatening humanity with a new world carnage. .

It is this major objective that must motivate and mobilize all communists wherever they are, in their struggle against the oppressive capitalist system, for true freedom, independence and prosperity.

The Communist Party of Albania reiterates its congratulations on the success of the work of the 2nd congress of the Party of Communists USA, a congress which will further consolidate the political and militant position of the Communist Party, being put in the vanguard role of the working class and of the proletarian revolution. At the same time, the PKSh assures you that it will always be in the same trenches of class struggle and revolution with the Party of Communists USA and the entire International Communist Movement, for the inevitable victory of Socialism and Communism.

Glory to Marxism - Leninism!

Long live Proletarian Internationalism!

Long live the Party of Communists of the United States of America!

Communist ideals are immortal!

Emperyalist kapitalist sistem, dünya işçi ve emekçi halklarına kan kusturduğu bir dönemden geçiyoruz. Kapitalist/emperyalist devletler bir yandan ülkeler işgal eder ve o ülkeleri yağmalarken diğer yandan da dünyanın pek çok ülkesinde ilerici iktidarları yıkmak ve yerine sağcı ve faşist diktatörlükler kurmak için yoğun çaba harcıyor. Bu bağlamda Venezuela önümüzde bir örnek olarak duruyor. Askeri, siyasi ve ekonomik olarak kuşatılan Küba halkına karşı da ABD emperyalistlerinin işlediği insanlık suçunu ibretle izliyoruz. Kuzey Afrika'dan Çin Seddi'ne kadar bölgede bir yandan işgaller gerçekleştirilirken diğer yandan da sözü geçen ülkelerde en gerici, dinci ve faşist yöneticiler desteklenerek işbaşında tutulmaya çalışılıyor. Şu an ABD emperyalizminin Suriye'de giriştiği işgal hareketini de açıkça görüyor bölgede yaşanan acıların dindirilmesi için emperyalist/kapitalist sistemin yenilgiye uğratılmasını savunuyoruz.

Sonucun başarıya ulaştırılması için dünya komünist partilerinin enternasyonal dayanışma içinde olmalarını da vazgeçilmez bir zorunluluk olarak değerlendiriyoruz.

Partinizin insanlığın tek kurtuluş seçeneği olan komünizm yolunda verdiği mücadeleyi kutluyor, 28 Ağustos tarihinde yapılacak olan kongrenizi komünist duygu ve kararlılıkla selamlıyoruz.

SOCIALIST WORKERS PARTY OF Turkey  
CENTER

August 12, 2021

To the Congress of Party of Communists USA

The world is going through a period in which imperialist capitalist system is causing a great distress for the workers and labors. Capitalist/ imperialist countries are making an effort both in invading other countries and looting them and in demolishing progressivist government in power and in founding conservative and fascist despotism instead in many countries all over the world. In this sense, there is Venezuela as a good example. We are sorry to watch the crime against humanity applied to the Cuban people that are militarily, politically, and economically blockaded by the American imperialists. In the region from the North Africa to the great wall of China, there is not only invasions but also a support for the reactionist, religious, and fascist leaders to keep them in their positions. We clearly see that the American imperialism is invading Syria and we support to inflict defeat the imperialist/ capitalist system to stop the misery in region.

To make the result successful, we think that it is necessarily an obligation for the communist parties to be in an international cooperation.

We appreciate the struggle of your party on course for communism that is the only way for the salvation of humanity and we salute your congress on August 28 with our communist emotion and determination.

Делегатам и гостям  
Второго съезда Коммунистической  
партии Соединенных Штатов Америки.  
г. Вашингтон

*Дорогие товарищи!*

Мне особенно приятно сегодня приветствовать съезд коммунистов Соединенных Штатов Америки.

За долгие годы холодной войны, нового геополитического противостояния, как-то позабылось, что в США – богатейшие традиции левого, рабочего коммунистического движения.

Борьба чикагских рабочих за свои трудовые права подарила миру праздник 1 мая, День международной солидарности трудящихся.

Именно американец, писатель Джон Рид подарил миру бесценные свидетельства о Великой Октябрьской Социалистической Революции. Все помнят героическую правозащитную деятельность коммуниста Анжелы Дэвис.

Массовые демонстрации левой американской молодежи остановили позорную войну во Вьетнаме.

Борьба американского народа за мир во всем мире, за прекращение гонки вооружений, против империалистической, колониационной политики правительства США всегда велась под красными флагами.

Деятельность Вашей партии — лучшее подтверждение тому, что идеалы социальной справедливости, интернационализма, равенства, братства живут в Соединенных Штатах, а в скором времени, уверен, начнут и побеждать.

Косвенно о возрождении левой идеи в Соединенных Штатах говорит, на мой взгляд, массовый интерес к фигуре сенатора Берни Сандерса. Да, он ограничен своей принадлежностью к «системной» Демократической партии, но не напрасно его называют «коммунистом». А это серьезный шаг к респектализации самого термина «коммунизм» в стране, которая считалась и считается главным мировым оплотом воинствующего антикоммунизма.

Мы, молдавские коммунисты, в своей повседневной политической деятельности постоянно сталкиваемся с агрессивной империалистической позицией коллективного Запада во главе с США.

Молдове беспардонно навязывают как внутреннюю, так и международную повестку, насаждают удобных для себя правителей на правах безвольных наместников, нарацивают сеть так называемых «гражданских активистов», готовых выступать против коренных интересов Молдавского государства многонационального молдавского народа. Итогом этой целенаправленной деятельности стало фактическое разрушение многовековых связей с Россией, превращение Молдовы в полигон для проведения всякого рода социальных и экономических либеральных экспериментов, которые ухудшают положение трудового народа, сокращают пространство нашего суверенитета.

Коммунисты, представители других левых сил Республики Молдова ведут неравную борьбу с попытками превратить наше независимое государство в управляемую извне колонию, элемент антироссийской политики Запада. Мы

искренне надеемся, что в этой борьбе мы сможем опереться на поддержку наших заокеанских товарищей и соратников.

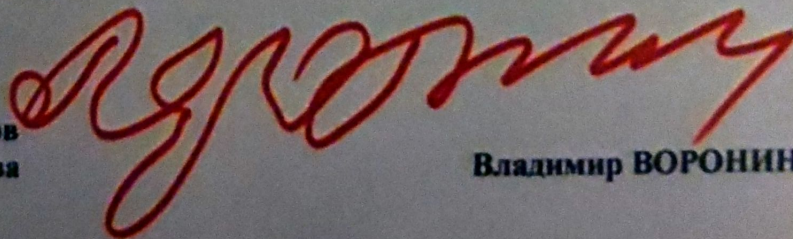

**Дорогие товарищи!**

От имени многотысячной армии молдавских коммунистов хочу пожелать Вашему съезду успешной работы. Убежден, что его решения лягут в основу вашей будущей плодотворной политической деятельности. Все больше и больше серьезных исследователей утверждает, что капитализм вступил в свою последнюю, терминальную фазу. Его крушение, в полном соответствии с учением марксизма-ленинизма, неизбежно. И только от нас с вами зависит, будет ли посткапиталистический мир воплощением гуманизма, просвещения, равенства и справедливости.

**Желаю Вам успеха в вашей борьбе!**

**Dear comrades!**

The Central Committee of the Communist Party of Ukraine, on behalf of the communists of our country, sends to the delegates and guests of your Party forum warm international communist greetings and heartily congratulates on the beginning of the work of the supreme governing body of your Party.

We, the communists of Ukraine, are confident that your current Congress will be held in an atmosphere of party comradeship, at which the Party will confirm its ability to dynamically develop in accordance with the new conditions caused by the global economic and financial crisis, the criminal policy of the US leadership and its satellites - the EU, the IMF, NATO, which led the world community to new military conflicts and terrorism, to the revival of fascism, to violations of the democratic rights and freedoms of citizens. Your Party Congress will reaffirm its political firmness and determination for the struggle to protect the rights, freedoms and interests of all US workers, in connection with which its political role both in the socio-political and socio-economic development of his country, and in the international communist and labor movement will acquire even greater importance and authority

We wish you all to continue to pay special attention to the class struggle of workers, to the trade union and youth movements, to defend your socialist positions. Be sure that a strong Communist Party united on the fronts of the class struggle, guided by the Marxist-Leninist method of analysis and solving specific problems will play an irreplaceable role in the social and political life of the United States of America.

We wish you all optimism, new achievements for the good of the American working people!

Long live Marxism-Leninism!  
Long live socialism!

Dear Comrades,

We are pleased to send you our sincere wishes at this second congress of the PCUSA.

We know how difficult it is to be communists in a country where the wildest imperialism rules, this makes your project a source of pride for the entire working class and a window to change the USA and make it a model of pride for the proletariat.

This is a time to appreciate the work done in the past and to work on the successes of the future, successes that are sure to come.

Because we live in a world of injustices, of inequalities, where the rich are getting richer every day while the poor are getting poorer every day, communism is not an option, it is a necessity!

We wish with this message to convey our admiration, with the hope that this camaraderie will be strong and lasting.

May this second congress be the beginning of a new stage for the USA, a path full of successes for the PCUSA and therefore for the working class.

Proletarians of the world, unite
