To
Comrade Antoine Lourdin
(General Secretary)
And
International Department
Central Committee
League of Young Communists USA

From
All India Committee of
All India Democratic Students' Organisation (AIDSO), India

Dear comrades,
Heartfelt revolutionary greetings for the Second Congress of The League of Young Communists USA (LYCUSA). At a time, when the education as well as other service sectors are facing the lashes of unprecedented attacks, which in turn, is depriving millions of oppressed people of their fundamental rights, this Congress is the need of the hour. We all know that the policy of globalisation, liberalisation & privatisation has resulted in opening out of the doors of education, health & other service sectors for investment by multi billionaires. The students community has been fighting against the disastrous and fascist education policies of the governments throughout the world.

Ever since its inception in the year 1954, All India Democratic Students' Organisation (AIDSO) has been organising students' movements across the country, against the government policies and the socio-economic system which have been promoting and advocating commercialisation of education, thereby, marring the very essence of education in several ways. Our organisation has been struggling for the introduction of universal, scientific, secular and democratic approach and attitude in education. Our strength comes from the inspiration that we draw from the glorious progressive struggles of different era and particularly, from the noble thoughts of Renaissance movement. The dream of a society, free from all sorts of inequalities which was conceived by the uncompromising freedom fighters of our country, leads us towards the ideology of scientific socialism which has been concretised on Indian soil by Comrade Shibdas Ghosh. Empowered with the powerful idea, we are steadfastly organising the students community belonging to the vast section of working class and poor peasantry into a united force. We are very happy to know that your organisation is also engaged in organising the oppressed section of the society in USA. We understand how difficult it is in your country but we appreciate your courage and conviction.

Here, in India, the Union Government has unilaterally imposed New Education Policy -2020 (NEP). This policy advocates all out administrative and academic centralisation of education, with the ulterior objective of making education a 'global commodity' and restructuring the syllabus, curriculum & teaching methodology in tune with

the communal and sectarian ideology of the ruling BJP government. Against this anti- poor, pro-corporate and anti-student policy, we are building up massive people's movement throughout the nation.

Our organisation has also played a remarkable role in the glorious movement led by the peasants of India and supported by the toiling people from different parts of the world. We were an integral and constant part of the valorous movement at different protest sites that were centered round the national capital.

In our struggle against the imperialist-capitalist governments and their policies, we have several things in common. As fighters, imbued with the noble and scientific ideology, we, the committed force for people's liberation have to cultivate the collectivism in our struggle. Both of us have one dream, the dream to be part of a struggle to establish a society free from exploitation! Yes! Carrying higher ethics, culture and morality, one day we will accomplish this dream in our respective countries.

Your country has a glorious history of accomplishing democratic revolution, ending slavery and nationwide movement against imperialist war. The students and the youth were in the forefront of all these upheavals. The militant students' agitations in 1960's, raged against the US war-mongering ruling class, raising voices against unemployment and discrimination, is an inspiration to all of us. We hope the present generation of US students will carry forward this rich legacy of militant struggles and develop powerful students' agitations against the US imperialist rulers.

In opposing imperialist war manoeuvres, upholding world peace, resisting imperialist attacks and fighting for the oppressed people, both of our organisations should have a close co-ordination.

Let us also strive to develop solidarity with all the anti-imperialist fighting students' organisations.

On behalf of the student community of India, we once again extend our revolutionary greetings to your organisation.

Your Second Congress is being held to discuss on these issues and we wish all success to your initiative to build independent national students organisation.

Revolutionary greetings to the
Second Congress of The League of Young Communists USA (LYCUSA) to be held on August 27, 2022.

Long live Students' Unity!
Long live Socialism-Communism!
Long live Anti- capitalist-imperialist struggle!
Long live the unity of fighting students of India and US!

(VNR Shekhar)
President
