To:

**The International Department of the Central Committee of the League of Young Communists,
United States of America.**

Dear Comrades,

The All India Committee of **All India Democratic Youth Organization (AIDYO)** extends its fraternal greetings to your historic Second Congress on August 27, 2022 in the land that is boastfully called 'land of Capitalism'. Revolutionary greetings to you all. It's heartening to see that the LYC, USA is gathering strength by carrying out movements of the young people of your country centring on issues of collective societal concern.

After the fall of socialism in USSR and China and with Russia and China turned into rude imperialist forces, the inter-imperialist contradiction has become the dominant feature determining the course of world history and in this situation the anti-imperialist struggle that you are trying to build up assumes greater importance.

You founded your organization at a time in 2016 when the cry of the people for liberation from the yoke of Imperialism- Capitalism was becoming louder since 2008 crisis. The urge for a change is manifesting itself in various ways in the form of spontaneous outbursts of the oppressed. The future of the young people anywhere in the world today is not bright. Unemployment, job loss, growing fanaticism, communalism, fascism and fratricidal bloodbath on non-issues are staring at the youth. The spontaneous movements that are bursting forth throughout the globe have failed to meet their goal of success due to lack of correct revolutionary ideology and the revolutionary party of the working class to lead to emerge with adequate strength to complete the task of revolution. In such a situation, role of LYC, USA to position yourself on the correct Marxist-Leninist ideological foot hold on American soil will be a most vital one. We earnestly expect that the root cause of revisionism and its role in the collapse of socialism and the challenges associated with the practice of Democratic

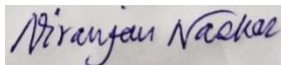

Centralism and Collective leadership as antidote for growing individualism also to receive due consideration in the deliberations in your congress.

AIDYO founded on the illumining thoughts of a great Marxist thinker and philosopher Comrade Shibdas Ghosh in 1966 in India with the aim of organising the youth in democratic mass movements centring around problems of youths' life particularly unemployment, bourgeois cultural onslaughts, alcoholism and drug menace and to prepare the organisation of conscious youth to fight communalism, casteism, parochialism, sectarianism and other divisive tendencies, naturally, feels one with your cause of building a powerful uncompromising revolutionary youth movement in your country.

At this momentous hour of the Second Congress of LYC, USA, we would like recall the words of Comrade Shibdas Ghosh, on the role of youth in the historical process of transformation of society thus: ***“We At every stage of development of the society, in every country, it is the students and young people who come forward, being influenced by and imbued with the revolutionary ideology and being completely dedicated go to the masses, rouse the masses, organize them in thousands and help them in creating their political power. Then the time comes for the masses for action — that we call Revolution”.***

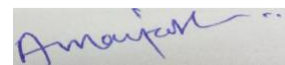

Comrades, let us unite, with the spirit of internationalism, in our joint struggle against imperialism-capitalism and in advancing our struggle for ushering in socialism in our respective countries.

With best wishes and revolutionary greetings again,

Niranjana Naskar

President, AIDYO

Amarjeet Kumar

General Secretary, AIDYO
