25th, August, 2022

Dhaka, Bangladesh.

Dear Comrades,

Warm revolutionary greetings from Bangladesh Youth Union (BYU).

We express our total solidarity with the League of Young Communists USA (LYCUSA)

We are watching that, Capitalism is facing its own doom, neoliberalism has failed as its own predictable consequence. right now we are living in such world where food crisis, health crisis and environmental crisis is making the world citizens suffer, yet the capitalist ruling class is conspiring to oppress africa asia to maintain the world domination rather than solving the crisis. the amount of anual military budget of USA alone can solve hunger, illiteracy and poverty of africa forever but still we don't see USA authority is not interested here but we see them aiding white supremacists in ukraine which shows clearly that imperialist capitalism is not working for humanity or peace or nature. we support your struggle and resistance inside USA and the success of your struggle will help the people of the world to establish equality, justice and peace. We are glad to see your straggle for the oppressed people around the world.

On the occasion of the 2nd Congress of the The League of Young Communists USA (LYCUSA), we like to congratulate all comrades of LYCUSA and wish all the success of your congress. We hope, we will continue our common struggle against imperialism, capitalism, and fascism in the hopes of building socialism-communism shall overcome in our lifetime.

Together we stand, we stand strong. Long live the revolution.

With Best Regards

**M.Ibrahim**
