

Dear comrades,

We in the Communist Youth-Communist Workers' Party (Finland) send warm communist greetings to the Congress of the League of Young Communists USA. We want to emphasize the importance of anti-imperialism and proletarian internationalism. American communist youth, have an exceptionally important role in this regard, as you live in one of the world's imperialist centers. We also wish to emphasize the importance of Marxism-Leninism, our ideological bedrock and compass. The validity and importance of Marxism-Leninism becomes ever more evident in these challenging times. We wish you the best success in your revolutionary work of organizing the youth and in the important work of your congress.

Sanni Riihiaho,

Member of the Central Committee of the Communist Workers' Party - For  
Peace and Socialism (Finland)

Representative of the Communist Youth-Communist Workers' Party (Finland)
