

The Communist Youth of Venezuela (JCV), greets all the militancy of the League of Young Communists of the USA in its II Congress.

Comrades of LYCUSA, we acknowledge all your efforts in holding this important II Congress, in a complex national and international setting, US-EU imperialism in confrontation with the new emerging economic blocs, loses hegemony and disputing with them, the control of the world for its natural resources, trade routes and markets, generating an escalation of the conflict, to the point of armed confrontation, where those who go to war and offer their lives are the sons and daughters of the working class. The crisis of the capitalist system aggravated by the post-pandemic health crisis has revealed the great evils of the capitalist system, deepening inequality and exploitation.

The US epicenter of imperialism is going through a serious internal crisis, due to the confrontation between Democrats and Republicans, who only represent the economic interests of 1% of the population to the detriment of the other 99% of the population, added to this, the loss of hegemony on a planetary scale has influenced the domestic problems of the US. The ideological apparatus of imperialism promotes racism, xenophobia, to divert attention, divide its population and justify greater exploitation of minorities; it seeks to manage the crisis and place all the weight of it on the shoulders of the US people, therefore, all our solidarity with the American workers of the city and the countryside.

We wish the greatest success in this II Congress of the Young Communist League of the USA and that in the heat of deliberations and debate, they build the platform of struggle that allows them to advance and unite the sons and daughters of the working class. of the USA heading for the final victory.

LONG LIVE THE II CONGRESS OF THE YOUNG COMMUNIST LEAGUE OF THE USA!

LONG LIVE PROLETARIAN INTERNATIONALISM!

The Communist Youth of Venezuela (JCV).

National Executive Commission (CEN).

Caracas August 27, 2022.
