

Movement for People's Democracy Statement to the 2022 Congress of the League of Young Communists USA

Greetings to the League of Young Communists USA from Movement for People's Democracy on the day of your 2022 Congress. At this time, thanks to the work from a multitude of LYC members, MPD is building up to do great work.

We have chapters all across the United States that have been chartered and soon will be organized into carrying out collective campaigns in multiple regions at once. In our chapters that we have, amazing work has been done through tabling, food distribution, mutual aid work, participating in demonstrations, building coalitions with other progressive forces and being involved in the politics of their local communities. Soon, we will even be endorsing candidates in electoral campaigns across the country.

MPD stands as one of the most crucial mass orgs to reach the working class and desperately needs the dedication and efforts of the comrades of the LYC as we go forth from this congress. This organization is allowing us to reach many different types of working class progressive organizations and people, and will help to bring us to the achievement of the support of the masses.

MPD is also crucial in our international movement as we take on issues of war and peace, capitalist hegemony and solidarity with the oppressed peoples of the world as well as the anti-imperialist forces of the world. Where we see the barbaric forces of fascism in the world, we oppose them. Where we see the reach of the deadly tentacles of American imperialism in the world, we oppose it. Where we see poor, oppressed people struggling for freedom and survival in the world against forces of the ruling class, we support them.

Therefore, we intend to see the great work in MPD continue and we will continue to value the indispensable efforts of the comrades in the LYC to our work. We also wish the LYC the absolute best in all of its efforts and campaigns and will always stand by them as a mass organization.

Sincerely,

The Steering Committee of Movement for People's Democracy
