

**We should own it all!**

People are losing their homes and their apartments, sleeping on the streets. Utilities like water and heat are being shut off. Military spending has skyrocketed while earned pensions are being cut to the bone. No one cares for our disabled veterans that served as cannon fodder in our country's imperialist wars. People are losing their jobs through no fault of their own. Private bankers and corporations have billions while working people live from paycheck to paycheck. Obscene student debt prohibits our young people from getting quality education.

Innocent people are being gunned down in the streets, victims of domestic terrorism every day all across the USA. State approved terrorism in our neighborhoods target African-Americans and other racially oppressed working people. There is no economic justice for working people. Civil rights are increasingly under attack. The epidemic of racism affects us all. This is all part of a socio-economic system called Capitalism. Capitalism is the system of exploitation of the many by the few. It is the system of exploitation that is hell bent of destroying the earth's environment. Capitalism can no longer be tolerated.

"I now take my place in the ranks of the international communist movement and the Party of Communists USA, the party of the U.S. working class.

I take this solemn oath to give the best that is in me to the service of my class.

I pledge myself to spare no effort in uniting workers in militant struggle against war, racism, imperialism, and fascism.

I pledge myself to work unsparingly in helping the organized labor movement, in the shops, among the unemployed, to lead the struggles for the daily needs of the American working class, understanding fully that the class struggle is a central ingredient in solving the oppression of working people."

**A party that**

**UNITES**

**FIGHTS**

**AND WINS**

**For you!**

## Our Revolution: 1776 – Now

Communists have always supported the right of workers to unionize and form unions of their own choosing. We fight against the oppression of all workers. The bosses love it when we fight each other. They use all forms of bigotry to keep US apart: racism, sexism, homophobia, xenophobia, and national chauvinism, the degrading of people because of their various different national origins. We struggle for the rights of people with disabilities. Many of us are disabled workers ourselves. Some of us were injured at work and cannot work anymore.

## We are the 99%!

Karl Marx said that "Labor creates all value." What that means is that "workers have built it all." Everything should belong to us! We have to take what is rightfully ours. We need to continue the American revolution of 1776 to the next stage- a society controlled by working people That's why we are rebuilding a vanguard Communist Party of the working class in the USA! (If you are under thirty, join the League of Young Communists (LYC) and fight for the rights of young people in USA). We are carrying on the historical traditions of the American Communist Party, founded in Chicago in 1919. Communists have historically emphasized class struggle as the only way working people attain their economic freedom.

### Party of Communists USA League of Young Communists USA

After we have built this country, the bosses discarded us like garbage. Communists are part of the working class. That is why we struggle against the capitalists, who are ruthlessly super-exploiting some in order to better exploit us all. Communists seek to end all exploitation of all humanity. The PCUSA aims for a scientific socialist society with a planned economy with full employment for people's needs, not corporate greed. We demand peace and global security. We struggle against imperialism and NATO. We struggle for the people's right to self-determination and national liberation. If this sounds good to you, we need your help in this good fight for a better life. Join the Party of Communists USA or our League of Young Communists (LYC)!

**DEMOCRACY  
SECURITY**

"And, inasmuch [as] most good things are produced by labour, it follows that [all] such things of right belong to those whose labour has produced them. But it has so happened in all ages of the world, that some have labored, and others have, without labour, enjoyed a large proportion of the fruits. This is wrong, and should not continue To [secure] to each laborer the whole product of his labour, or as nearly as possible, is a most worthy object of any good government."

– President Lincoln
